PROFESSIONAL SUMMARY

Highly motivated Software Developer with strong expertise in building modern, scalable, and responsive web applications using React, Next.js, TypeScript, Material UI, Node.js, Express.js, MongoDB, Firebase, and Cloudinary. Demonstrated ability to design and develop production-quality applications across healthcare, education, real estate, restaurant, and business sectors. Passionate about creating exceptional user experiences, clean code architecture, performance optimization, and solving real-world business problems through technology. Currently pursuing a degree in Civil Engineering while continuously advancing software engineering skills through hands-on projects, documentation, and industry best practices.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Material UI

Backend: Node.js, Express.js

Database: MongoDB, Firebase Firestore

Cloud & Services: Firebase Authentication, Firebase Storage, Cloudinary

Tools: Git, GitHub, Vercel, VS Code, npm, REST APIs

Core Strengths: Responsive Design, UI/UX Development, Component Architecture, API Integration, Authentication Systems, Performance Optimization, SEO Fundamentals

FEATURED PROJECTS

OAU Health Center Website

Designed and developed a modern healthcare platform focused on accessibility, service presentation, and responsive user experience.

Naija Creative Hub

Built a digital platform connecting creative professionals, businesses, and opportunities through a modern interface.

NovaCrest University Website

Developed a comprehensive university website featuring admissions, academics, faculties, and institutional information.

HavenNest Real Estate & Housing Platform

Created a premium property listing platform with modern UI/UX, property showcases, and conversion-focused design.

Veloura Restaurant Website

Built a professional restaurant platform featuring menus, reservations, customer engagement, and elegant visual branding.

PROFESSIONAL HIGHLIGHTS

- Built multiple real-world projects demonstrating strong frontend and full-stack development skills.
- Experienced in creating pixel-perfect responsive interfaces across desktop, tablet, and mobile devices.
- Strong understanding of React ecosystem, component reusability, and scalable application architecture.
- Continuously improve technical expertise through documentation, project-based learning, and industry resources.
- Capable of independently managing projects from planning and design through deployment.

EDUCATION

Obafemi Awolowo University (OAU)

Bachelor of Engineering (B.Eng.) – Civil Engineering

Expected Graduation: 2028

TRAINING & PROFESSIONAL DEVELOPMENT

- Frontend Development Training – Memo (Certificate Completed)
- Advanced JavaScript, React, and Next.js Learning – Documentation & Project-Based Practice
- Backend Development (Node.js, Express.js, MongoDB) – JavaScript Mastery, Net Ninja, and other professional learning resources
- Continuous self-development through official documentation, real-world projects, and software engineering best practices

AVAILABILITY

Available for Freelance, Contract, Remote, Internship, and Full-Time Software Development Opportunities. Interested in Frontend Development, React Development, Next.js Development, and Full-Stack JavaScript Engineering roles.
